The International Conference on Technology and Instrumentation in Particle Physics focuses on all areas of detector development and instrumentation in particle physics, astroparticle physics and closely related fields. Since this is a science driven cross-disciplinary conference on Technology and Instrumentation, the overview talks from each experiment are not the usual "beauty contest" type of presentations shown at typical physics or hardware conferences. Presentations have a special focus on what the technological limitations are of current experiments and how technology limits the science and focus on ideas on how to break these technological barriers. To make the TIPP conference a success active participation of industrial partners is important. Technological breakthroughs allowing new Particle Physics instruments can only be achieved through a close –collaboration with partners from industry.

TIPP 2014

Held every two years in a different region on the globe, TIPP brings together over 500 participants. All participants have extensive experience with the development and applications of novel detector techniques for particle and astro-particle physics experiments. The graduate-students and post-docs are employed on fixed-term contracts and will be looking for career opportunities.

TIPP 2014 will take place at the Beurs van Berlage in Amsterdam, The Netherlands, from 2-6 June 2014, with an expected participation of over 500 participants. TIPP will deliver numerous benefits to sponsors depending on the desired level of visibility, priorities and goals. Sponsoring TIPP will be a rewarding marketing, business development and partnership opportunity, and gives you access to the pool of instrumentation developers from the particle physics community. There is a basic sponsoring packet, with the possibility to extend the level of involvement to the desired need.

Sponsorship Benefits

- Targeted audience of over 500 technical leaders, researchers, and young scientists from around the world.
- High visibility and a prime opportunity to present key achievements and strategic goals.
- Showcase cutting edge technology to an international audience in a dedicated exhibition area.
 - Extensive networking opportunities at sessions and social events.

Sponsor Package

The TIPP Sponsor package is available for those supporting TIPP with at least € 2.500.

- Benefits:
- Visibility with logo around the coffee break areas on the date chosen
 - Ten (10) single-day attendee passes are included for the date chosen
 - Visibility on the TIPP web page, with logo linked to your web page
 - Visibility on all conference communications and posters

Custom Sponsorships

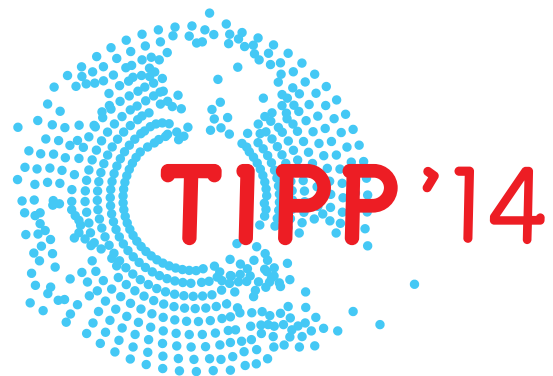

In addition TIPP aims to give business and industry players a prominent and visible role through tailor-made sponsorship partnerships. Please feel free to contact us with your ideas on sponsorship if the options above do not suit your needs. One can for example think of a programmatic contribution in the form of a keynote lecture, or even a special focus session. In addition there is the possibility to sponsor specific parts of TIPP like for example the conferences diner, sponsored attendances for promising young scientists, etc.

If you are interested in sponsoring TIPP 2014, please contact: Arjen van Rijn or Auke-Pieter Colijn:
